1. Introduction

The Supervisory Board of PKO BP SA, in accordance with the relevant provisions of the Commercial Companies Code, provides the Ordinary General Meeting of Shareholders of PKO BP SA with a report containing the results of evaluations of:

- 1) the report of the Management Board of the Bank on the operations of PKO BP SA for 2008,
- 2) the financial statements of PKO BP SA for 2008,
- 3) motion of the Management Board of the Bank on the distribution of profits earned by PKO BP SA in 2008,

and the report on the activities of the Supervisory Board as a corporate body for 2008.

Evaluation of the report of the Management Board of the Bank on the operations of PKO BP SA for 2008.

In discussing the Report, the Supervisory Board emphasised that, despite the crisis on international financial markets and its effects on the Polish economy, in particular the slow-down in economic growth and the depreciation of the zloty, in 2008 PKO BP SA achieved a very good financial result - its net profit was 2,881.3 million zlotys, which was 161.3 million zlotys higher than in the previous year. The Supervisory Board positively evaluates the rise in the Bank's balance sheet total by 25.9 billion zlotys to a level of 131.2 billion zlotys, which was the result of dynamic growth in its credit operations financed through an increase in client deposits and the Bank's effectiveness, measured as a C/I of 45 per cent and an ROE of 22.8 per cent.

The Supervisory Board positively evaluates the work of the Management Board, thanks to which in 2008 PKO BP SA attained its position as the leader in the banking sector in terms of assets held and equity.

Information on implementation of the strategic programme

PKO BP SA is a universal bank which is maintaining its strong position in retail banking and its leading role on the mortgage market. At the same time, it is strengthening its position as a service provider to businesses, including both small and medium-sized enterprises.

PKO BP SA is ensuring its shareholders of effective management of the capital entrusted to it, and is providing its employees with working conditions which allow them to develop professionally.

In 2008, PKO BP SA concentrated on implementing fundamental strategic goals, primarily including maintaining its position as leader on the Polish retail banking market, the effectiveness and quality of its customer services, developing products and services, and carrying on a sensible pricing policy. One of the biggest challenges of 2008 was to ensure a stable basis for financing the operations for PKO BP SA through obtaining deposits from individual customers. This process began in September 2008. The change in the Bank's deposit policy was particularly significant when the financial crisis deepened in October 2008. The Bank maintained liquidity at a satisfactory level and played a very positive role in maintaining the stability of the banking system in Poland.

In the area of corporate banking, the Bank broadened its range of products and services, and introduced changes to its sales and customer services model, which led to an increase of PKO BP SA's significance on both the deposits and business loans markets.

In the area of loans, PKO BP SA saw its market share of loans to commercial entities grow in 2008, and held its position as leader on the Polish loans market.

PKO BP SA strengthened its ownership supervision over Kredobank SA, and began implementing a restructuring programme of Kredobank SA's credit portfolio, and of the bank itself.

On 28th of November 2008, PKP BP SA made a binding offer to purchase shares of AIG Bank Polska and AIG Credit SA.

In 2008, PKO BP SA implemented a restructuring programme in its sales network and introduced changes in its back office in connection with improving the quality of its systems supporting the Bank's business operations.

As part of these activities, the Super Express campaign was implemented, thanks to which the effectiveness of the sales network was improved through standardisation and the implementation of tools to improve employee effectiveness.

In 2008, the process of modernising branches of the Bank continued. In 2008, 183 branches were modernised, comprising 50 per cent of branches, and 20 new branches were opened.

In 2008, the Bank continued work in connection with implementing an Integrated IT System. In September 2008, the mass implementation of the Alnova system in all PKO BP SA branches and agencies was completed. The IITS project, which, due to its scale and complexity, was one of the largest IT projects yet carried out in Poland, is now serving over 11 million accounts. In order to ensure the stability of the system and minimise risks, a process for centralised administration of all changes to the system and its environment was implemented.

As a result of the restructuring operations of the Bank carried out in 2008, there was an employment reduction of 1,463 posts. New rules for granting bonuses to employees were introduced which made the amount of employees' bonuses directly dependent on the results of their work, thus increasing the motivational basis for the remuneration system.

The Bank's Supervisory Board - in accordance with the provisions of Article 382 § 3 of the Commercial Companies Code - having evaluated the Report of the Management Board of the Bank on the Operations of PKP BP SA for 2008, which contains information on the activities of the Management Board as a corporate body, gave a favourable opinion to the draft resolution of the Ordinary General Meeting of Shareholders in the matter of approving the Report of the Management Board of the Bank on the Operations of PKP BP SA for 2008.

Evaluation of the financial statements of PKO BP SA for 2008.

The Bank's Supervisory Board heard the opinion of the auditor appointed to audit the Bank's financial statements on the subject of the economic and financial condition of the Bank. The auditor gave its opinion without reservations. It stated, among other things, that the financial statements were prepared on the basis of correctly maintained books of account, that they comply with the applicable external regulations and the Statute of the Bank, and that they reliably and clearly present the asset and financial situation of the Bank as at 31 December 2008 and the financial result for 2008, in accordance with International Financial Reporting Standards.

The Supervisory Board shares the opinion of the auditor.

The Supervisory Board of the Bank - in accordance with the provisions of Article 219 § 3 and Article 382 § 3 of the Commercial Companies Code and on the base of the review made by the Supervisory Board Audit Committee and on the base of the opinion of the auditor without any objections to the audit of Financial Statements of PKP BP SA for 2008, endorsed the Report as having been drawn up in compliance with the books of account, documents and the factual situation. The Supervisory Board endorsed the draft resolution of the Ordinary General Meeting of Shareholders on approval of the Financial Statements of PKP BP SA for 2008.

The favourable evaluation of the Report of the Management Board of the Bank on the Operations of PKO BP SA for 2008 and of the Financial Statements of PKO BP SA for 2008 form the basis for the endorsement of the draft resolution of the Ordinary General Meeting of Shareholders on granting a discharge from liability for the performance of duties to the members of the Management Board for 2008.

Evaluation of the motion of the Management Board of the Bank on the distribution of profits earned by PKO BP SA in 2008,

the Bank's Supervisory Board did not give the positive opinion on the Management Board motion on the allocating net profit of PKO BP earned in 2008.
